

BAKKRANS TRAIL

This trail is classed as a moderate circular day hike of 3 -5 hrs duration and 6.7km distance. The trail is well marked with way markers at expected intervals on a well groomed single-file footpath. Being in a wilderness area there are some herds of wild game on the trail and any warnings about walking with such animals should be heeded. The trail is in a pristine wilderness environment with botanical and wildlife interests, including rock art and interesting caves. Look out for bees on the final descent back onto the lodge track where there are a number of hives, they are placed at a safe distance. Rock paintings are visible in one of the caves. The level of risk is considered safe and the trail is moderately developed

CROCODILE TRAIL

This trail is classed as an easy circular walk of 2 - 3 hours duration and 4.45km distance. The trail is well marked with way markers at expected intervals on a well groomed single-file footpath. The trail has an emphasis on nature and scenic exploration. The trail is in a dominant pristine wilderness and natural environment with botanical (aloes) and rock formation interests. The level of risk is considered safe and the trail is moderately developed.

LEOPARD TRAIL

This Leopard Trail is classed as an easy circular short walk of 30min to 45min duration and 800m in distance. The trail is well marked with way markers at expected intervals on a well groomed single-file footpath. It is a family friendly trail with an emphasis on nature and scenic exploration and is accessible all year round. The trail is in a dominant pristine wilderness and natural environment with botanical interests and views of the lodge area. The level of risk is considered safe and the trail is moderately developed.

ORRELGROT TRAIL

This trail is classed as a difficult circular hike of 1 -2 hrs duration and 1.89km distance. The trail is well marked with way markers at expected intervals on a well groomed single-file footpath. It is a steep climb in places, but the trail is well maintained and easy to follow. The environmental character is pristine wilderness with botanical and wildlife interests, and especially the geological interests of caves and unique rock formations. The level of risk is considered safe and the trail is moderately developed.

THE SOURCE

This trail is classed as an easy circular day walk of 2 -3 hrs duration and 3.5km distance. The trail is well marked with signage and way markers at expected intervals on a well-groomed wide footpath. It is a family friendly trail with an emphasis on nature and scenic exploration that follows the river bed in places and goes to the water source in the kloof. The trail is in a dominant pristine wilderness environment with botanical and wildlife interests, it includes beautiful gorge cliffs and a shallow rock pool (no swimming allowed). The level of risk is considered safe and the trail is moderately developed.
